

Testing Spring

Beginner to Guru

TDD 2 - Degenerate Objects

TDD Cycle Review

1. **Write a Test** - Think about how the code should work.
 2. **Make it Run** - Quickly get the code working. Make the test “**Green**”.
 3. **Make it Right** - Refactor the running code to quality, proper code.
-
- **Goal** - “Clean Code that works.” - Ron Jeffries

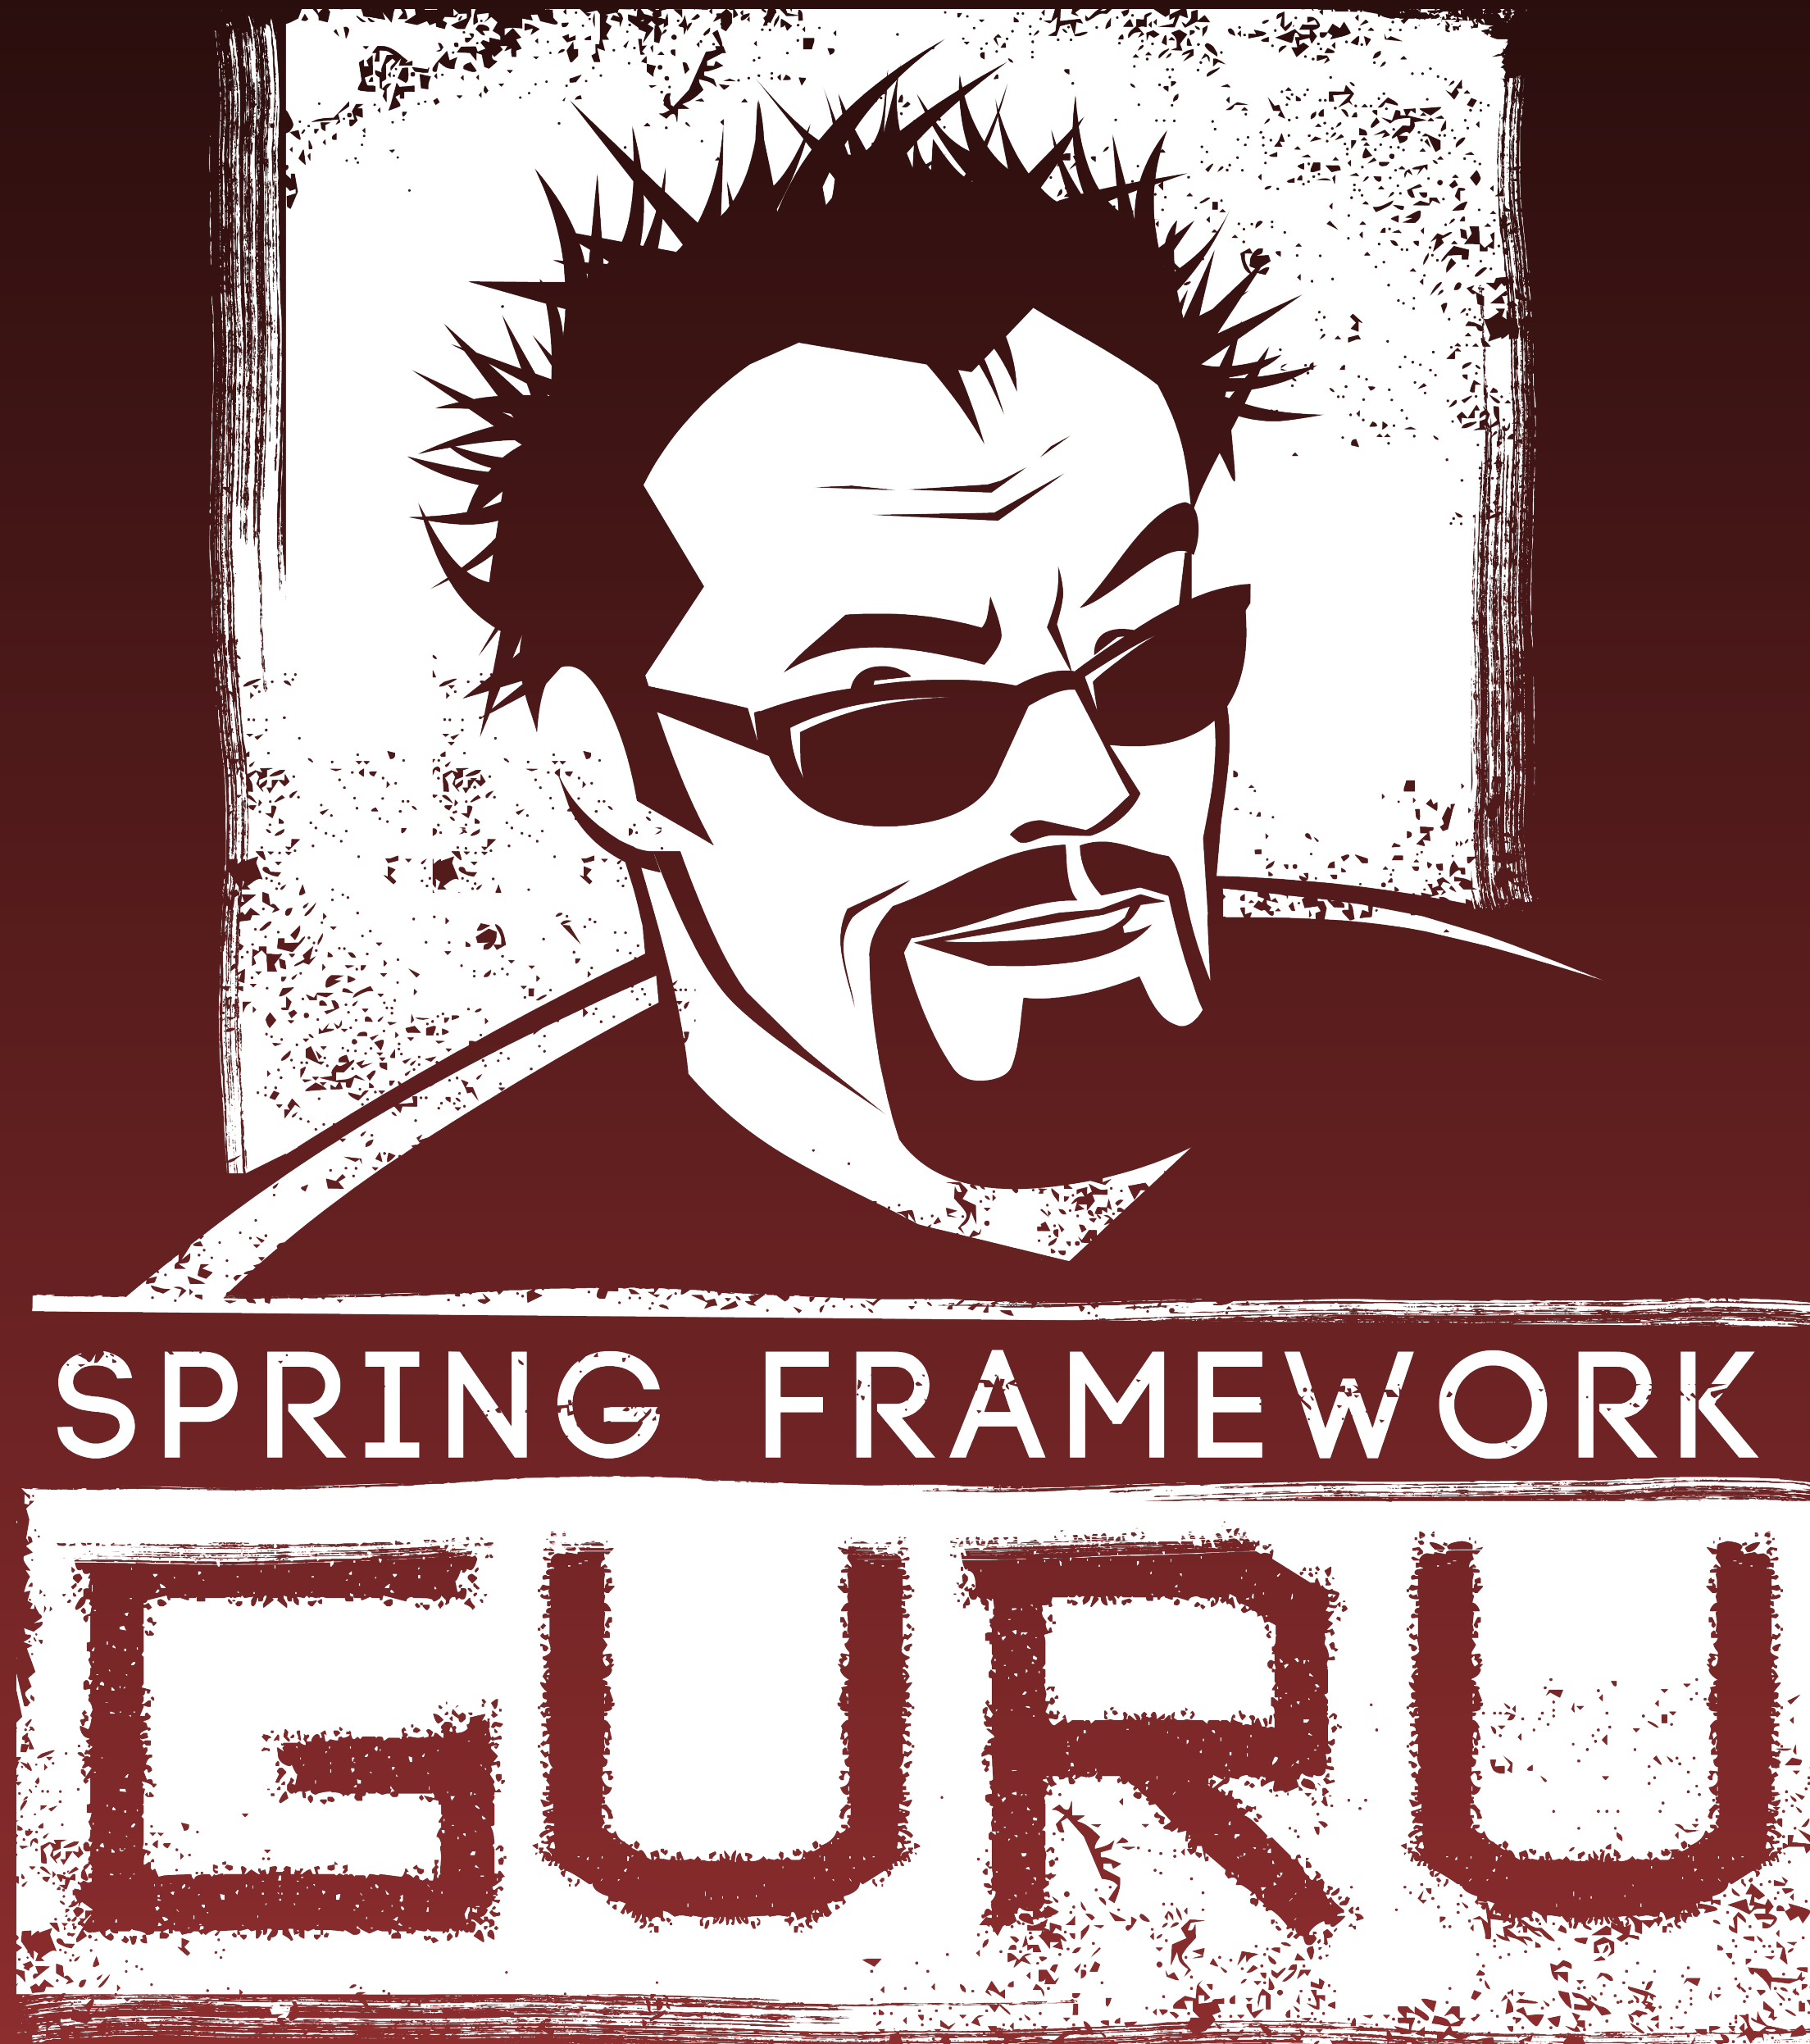

TDD To-Do List

- $\$5 + 10 \text{ CHF} = \10 (with rate of 2:1)
- ~~$\$5 * 2 = \10~~
- Make “amount” private
- **Dollar side effects?**
- Money Rounding?
